## PATENTS FILED/PUBLISHED

Sl. No	Patent Application number	Date of Publication	Invention titled	Inventors	Status
1	202511054200	20/06/2025	AI based Robot for Global market using Renko Chart	Bhavani B H	Published
2	202541108602	9/11/2025	A method, system and bicycle for enhancing Bicycle Safety with integrated Multi Domain Threat Detect.	Bhavani B H	Filed
3	202541114019	16/11/2025	A method, system and vehicle for automated tyre pressure verification and regulation using image	Bhavani B H	Filed
4	202541112241	16/11/2025	A method and system for Automated Aerial harvesting of Agricultural Products using Drones	Bhavani B H	Filed
5	202541114096	20/11/2025	An ML-Enabled Personalization Therapeutic Intervention System for Lifestyle Disease Prevention and Control	Dr Pooja H Dr Shweta Kaddi	Published
6	202541063255	11/07/2025	HaptoBridge - Quantum Enhanced Wearable Communication Navigation Device	Rashmi B N	Published
7	202541069557	23/07/2025	Deep Learning- Driven Framework for real time malware detection in Desktop and Web Applications	Snehalatha N	Published
8	202541031296	11/04/2025	Artificial Intelligence based Culinary management device and method	Dr. Abhilash C B	Published
9	202541031466	11/04/2025	Scanner- based health record management system	Dr. Abhilash C B	Published
10	202411043719	05/06/2024	Artificial Intelligence-Enhanced System for Brain Tumor Detection and Diagnosis Using CNN	Dr. Supriya B N	Published

11	202241052305	15/03/2024	Context Less Grammar-Based System for Soil Texture Classification	Dr. Pradeep H K	Published
12	202441051953	06/09/2024	Smart Printer and Method for Document Editing	Rashmi B N	Published
13		5/1/2024	Auto Pilot Self Driving Car Using Embedded Artificial Intelligence	Dr.Pavithra G S	Published
14	2021100064	19/4/2021	Wild Life Intrusion Detection System Empowered With Artificial Intelligence	Dr.Naveen N C	Granted
15	202041051008	17/09/2021	An Apparatus For Interactive Information Exchange Through Machine Learning.	Shanthala K V	Published
