!deathon

5th November 2018

Creativity is the process of integrating stored data with new information to satisfy an individual's curiosity. An Ideathon is a short, intensive, brain-storming one day experience for all the students of JSSATE that challenges participants to address real world problems through innovation.

PROCESS

- ❖ Abstract Submission: Submission to the program coordinators' E-mails
- ❖ Selected abstracts will be notified through candidates E-mails.
- ❖ Presentation: The PPT should include detailed information about project concepts, flow diagram, hardware/software details, Platform selection, expected outcome and cost of the project. The time for presentation and interaction is 15 minutes.
- ❖ Top 10 selected Teams will be considered for funding, to transform idea to project/ Product through JSSMVP initiatives towards "students innovation project".

RULES

1. Abstract should contain title of the idea/project, brief summary and expected outcome.
2. Idea can be an individual project or a team project. In case of a team, total team can consist of a minimum of 2 to maximum of 4 members.
3. Selected Participants have to present their idea/project to the judges.
4. Plagiarized content will be disqualified.
5. Decision of the evaluation panel and judges will be final. No query with regard to evaluation will be entertained.
6. Unsuccessful entries & submissions will be intimated by mail.

Last date for the submission of Abstract

22nd Oct 2018
